

# Haven of Hope

Hope Villages of America

Haven of Hope is a shelter for abused women operating in Clearwater, which PHNC has previously supported.

There are normally 16-24 residents at Haven of Hope at any given time, unfortunately especially during the Holidays there is often a sharp rise in intake up to 30 residents.

We would like to reflect on our good fortune and try to offer support to women who are in need of shelter and hope this season.

Please consider supporting our Cookie Drive collection, by donating an item or two to women in need. Please choose from items on the list below and bring them to the Cookie exchange for collection.
